- ☒ **Study Unit Sub-Theme(s) (specify)**
Cold War/Nuclear Fuel Production
Reactor Operations, Facilities Support (Craft)

Statement of Significance

- Date of Construction 1964 Architect/Engineer/Builder General Electric/Burns and Roe
- ☒ In the opinion of the surveyor, this property appears to meet the criteria of the National Register of Historic Places.
- ☒ In the opinion of the surveyor, this property is located in a potential historic district (National and/or local).

The 1705-N Facility was constructed in 1964 as part of the original N Reactor complex to provide space for a variety of operations and support services. For example, the 1705-N Facility contains a module shop, communications shop, document storage/conference room, computer shop, instrument shop, electrical shop, small appliance storage room, restrooms, and other associated office and support facilities. This property is not associated with an important person (Criterion B), does not possess any distinctive architectural features or methods of construction (Criterion C), and does not qualify under Criterion D as the principal source of important information. However, the 1705-N facility qualifies under Criterion A due to its association with the Cold War production of plutonium at N Reactor, and its contribution to Reactor Operations, specifically the Facility Support System. Therefore, it is the conclusion of the U.S. Department of Energy that the 1705-N Facility is eligible under Criterion A for inclusion on the National Register of Historic Places as a contributing property within the Hanford Site Manhattan Project and Cold War Era Historic District.

Description of Physical Appearance

The 1705-N Facility is a rectangular, one-story, steel frame building with a poured concrete foundation, corrugated metal exterior wall, and flat roof surfaces. It shares a wall with the 1705-NA Maintenance Shop Annex. Its maximum measurements are 167 ft by 69 ft (51 m by 21 m); 11,523 ft² (1,017 m²). No significant changes have been made.

The N Reactor UTM coordinates are as follows: Northeast corner - 303974E, 5172485N; southeast corner - 303974E, 5171639N; southwest corner - 303069E, 5171639N; northwest corner - 303069E, 5172485N.
